CERTIFICATION

A representative sample of the waste stream was obtained using an EPA approved method and corresponds to the information and or attached to this profile. If, after having taken delivery of the waste, quality control testing finds a variance in the waste from the identification and description on this profile sheet, off-spec charges may apply. Eldredge will either process the waste if it meets our acceptance criteria or we will re-direct the waste to one of our approved facilities. If Eldredge is unable to process and/or re-direct or the waste is no longer non-hazardous we will notify the generator and/or broker and make arrangements to return the waste to the generator or another location designated by the generator and/or broker in writing. Generator and/or broker agrees to reimburse Eldredge, Inc. for all handling, packaging, clean-up and transportation costs or charges, damage to equipment and cost associated with lost time incurred by Eldredge, Inc. during receipt, handling, temporary storage and return of such non-conforming waste to point of origin or other agreed upon facility.

The undersigned agree to the prices set forth in the Eldredge, Inc. Facility Price Sheet or in a specific quote signed by both Eldredge, Inc. and the Billing party. Eldredge, Inc. may after giving notice, suspend services under any agreement without liability until all past due accounts (including fees and interest accrued) have been paid. In the event Eldredge, Inc. has to take legal action to be paid for its services and prevails, all reasonable attorney fees and costs associated with this action will be reimbursed by the client. Unpaid balances over 30 days will be charged a 1.5% per month interest charge. The undersigned agree that any claims arising from this transaction/agreement shall be brought within the court structure of Chester, County, Pennsylvania.
